Career Objective

Passionate tech enthusiast with a strong foundation in Full Stack Development and Machine Learning. Skilled in building intelligent systems and dynamic web applications using Java, C++, JavaScript, SQL, and MongoDB. Quick learner and problem-solver, eager to contribute to innovative, real-world solutions.

Education

Sastra University

B.Tech, Computer Science and Engineering

CGPA: 9.2035

Expected 2027

Sri Chaitanya Junior College

Intermediate

Percentage: 94.4

2021–2023

CRR Secondary School

10th

Percentage: 91

2020–2021

Skills

Frontend: HTML, CSS, JavaScript, React

Backend: Python, Django and Node.js

Databases: MySQL, MongoDB

Machine Learning: Classification and Regression Techniques

Additional: Java, C++, C

Projects

Multi-Step Registration Wizard — Developed a multi-step user registration system with real-time validation, AJAX-based form submission, and secure backend data handling using JSP and MySQL. (Try it here)

Chronic Kidney Disease Prediction — Built a CKD prediction model using XGBoost with 99.11% accuracy. Performed preprocessing, feature engineering and model tuning. (Try it here)

Movie System — Developed a movie management platform with full CRUD operations using React, Node.js, Express, and MongoDB. Added movie search functionality and built a responsive, user-friendly UI with Bootstrap. (Try it here)

YouTube Clone — Created a YouTube clone using HTML, CSS, JavaScript, and the YouTube Data API. It supports video search and playback with a responsive interface resembling YouTube. (Try it here)

Certificates

Python and Django Framework for Beginners Complete Course (View here)

Introduction to SQL (View here)

Data Science, Machine Learning: Ultimate Course Bootcamp (View here)

Areas of Interest

Full Stack Development

Machine Learning

Extracurricular Activities

Member of Swarag Club of SASTRA University
